IPAC

IPAC-CSO and PHO are pleased to host the 24th Annual Infection Prevention and Control Education Day! This event is an excellent opportunity to enhance your infection prevention and control skills and build partnerships with professionals from across the health care continuum.

The full day event is geared towards all healthcare workers and support staff; from front-line care providers to management and members of the leadership team...Join your peers from Hospitals, Long-Term Care, Retirement Homes, Public Health Units, and Community Health Care as they learn practical information and gain the tools they need to immediately improve patient safety and strengthen their facility's infection control program.
